Anti-Theft - Stay Safer by Tracking and Locating Your Missing Laptop

Protect your laptop in case it gets lost or stolen, and increase the chances of its retrieval.

Location Tracking	Lets you mark a device as missing via ESET Anti-Theft to initiate automatic monitoring
	Displays position on a map based on the Wi-Fi networks in range when it comes online
	Allows you to access the gathered information via ESET Anti-Theft at my.eset.com
Laptop Activity Watch	Allows you to watch thieves via built-in camera
	Collects snapshots of the missing laptop's screen
	Saves all recent photos and snapshots to the web interface at my.eset.com
Anti-Theft Diagnostics	Optimizes Anti-Theft settings, makes it easy to configure Windows auto-login and account passwords
	Offers simple and comprehensive setup process and configuration options
	Helps you increase the level of security by prompting you to modify key system settings
One-way Messaging	Send a one-way message to your missing laptop to increase the chances of its retrieval

Keep Your Private Data Safe from Identity Theft

Stop hackers from misusing your passwords and bank account details. Enjoy safer connections, stay invisible in public Wi-Fi networks, and prevent your private data being copied to unauthorized flash drives.

Personal Firewall	Prevents unauthorized users from accessing your computer and taking advantage of your personal data
Out-of-Home Network	Alerts you when connecting to an unknown network and prompts you to switch to the stricter protection mode
	Makes your device invisible to other computers connected to the same network
Removable Media Control	Allows you to block CDs, DVDs, USB & other media and storage devices
	Lets you set rules based on type of media, manufacturer, size, and other attributes
	Gives you the option to set permission to "read/write", "read only" or "blocked"
	Allows you to stop unauthorized copying of your private data to external devices
Anti-Phishing	Protects you from attempts to acquire sensitive information such as usernames, passwords or banking and credit card details by fake websites masquerading as trustworthy ones
Antispam	Filters unwanted messages from your inbox, so that you receive only what concerns you

Stay a Safe Distance from Internet Threats

The time-tested NOD32 technology in ESET Smart Security 6 lets you enjoy your technologies to the fullest. The solution eliminates all types of threats, including viruses, rootkits, worms, and spyware. Cloud-powered scanning delivers a higher level of protection, speeding up scans and ensuring that your computer runs at its best. All removable media such as USB sticks, CDs and DVDs are scanned upon insertion for offline malware.

Antivirus and Antispyware	Provides proactive protection against all types of online and offline threats and prevents malware spreading to other users
Cloud-powered Scanning	Speeds up scans by whitelisting safe files based on file reputation database
Scan While Downloading Files	Decreases scanning time by scanning specific file types – such as archives or phone updates – during the download process
Idle-state Scanning	Aids system performance by performing in-depth scans when the computer is not in use
	Helps detect potential inactive threats before they can cause damage
Host-based Intrusion Prevention System (HIPS)	Lets you customize the behavior of the system in greater detail
	Gives you the option to specify rules for system registry, active processes and programs to fine-tune your security posture

Enjoy the Full Power of Your Computer

Leaving more power to programs you use daily, the solution lets you play, work and browse the Internet without slowdowns. Stay unplugged and online longer with battery-saving mode and enjoy gaming without distracting pop-ups.

Small System Footprint	Maintains high performance and extends the lifetime of hardware
	Fits any type of system environment
	Saves internet bandwidth with extremely small update packages
Gamer Mode	ESET Smart Security automatically switches to silent mode if any program is run in full-screen mode
	All pop-up windows, updates and other system-demanding activities are postponed to preserve system resources for gaming or other full-screen activities (video, photo gallery, presentations)
Portable Computer Support	Postpones all non-actionable pop-up windows, updates and system-demanding activities to preserve system resources so that you can stay online and unplugged longer

PIONEER OF THE ANTIVIRUS INDUSTRY FOR 25 YEARS   eset

Keep Kids Safer on the Internet

Our Parental Control gives you the power to show kids only the good side of Internet relieving your worries about them being exposed to potentially offensive content. You can block more than 20 website categories and manually add additional websites to the blacklist if required.

Parental Control	Gives you the option to choose from predefined categories according to age of your kids
	Lets you set a password to protect settings against modification as well as prevents unauthorized product uninstallation

Install and Forget or Tweak Away

Delivering top protection right from the start with the default settings, ESET Smart Security 6 keeps you informed about potential security issues and lets you address them directly from the main screen. The user interface is designed to let you easily set up and run scans and quickly find the settings you need. In addition, you can fine-tune your security profile with more than 150 detailed settings and password-protect the solution against foreign tampering.

One-click Solution	Protection status and all frequently used actions and tools are accessible from all screens
	In case of any security alerts, quickly find the solution in one click
Settings for Advanced Users	Offers in-depth security settings to fit your needs
	Allows you to define maximum scanning depth, scanning time and size of the scanned files and archives and much more
After-scan Actions	Lets you choose the action after an on-demand scan completes, saving your time
	The available actions are: sleep, reboot or shutdown

ESET SOCIAL MEDIA SCANNER

NEW

Extending your security to Facebook, this free app checks the content of your profile and notifies you of malicious links and potentially harmful content.
Checks your profile, wall content, newsfeed and private messages even when not logged in and also protects your Facebook friends.
