

SMART SECURITY

2014 EDITION

ENJOY SAFER TECHNOLOGY™

SMART SECURITY

Enjoy your digital life and safer technology, secured by the record holding Internet security with the most consecutive VB100 awards by Virus Bulletin. ESET Smart Security® offers you an all-in-one security package that combines our unique technology and tools to keep you safe online and offline. Includes a new defense against threats that mask their presence by heavy encryption and obfuscation.

Stay a Safe Distance from Internet Threats

The protection technology trusted by millions around the world lets you enjoy safer online browsing and offline activities to the fullest. It eliminates all types of threats, including viruses, rootkits, worms, spyware and phishing attacks. Your passwords and banking details stay secure with Anti-Phishing. The built-in antivirus keeps you a safe distance even from threats that evade detection - our Exploit Blocker technology detects and stops such attacks.

Antivirus and Antispyware	Provides proactive protection against all types of online and offline threats and prevents malware spreading to other users
Exploit Blocker <small>NEW</small>	Blocks attacks specifically designed to evade antivirus detection Eliminates lockscreens and ransomware Protects from attacks on web browsers, PDF readers and other applications
Advanced Memory Scanner <small>NEW</small>	Enables improved detection of persistent malware that employs multiple layers of encryption to conceal its activity
Cloud-powered Scanning	Speeds up scans by whitelisting safe files based on file reputation database
Scan while Downloading Files	Decreases scanning time by scanning specific file types – such as archives or phone updates – during the download process
Idle-state Scanning	Aids system performance by performing in-depth scans when the computer is not in use Helps detect potential inactive threats before they can cause damage
Host-based Intrusion Prevention System (HIPS)	Lets you customize the behavior of the system in greater detail Gives you the option to specify rules for system registry, active processes and programs, and fine-tune your security posture

ESET Social Media Scanner

Extend your security to Facebook and Twitter with this app. The app's Security Center informs you which of your private information is visible to public and provides direct links to tune-up your social media security profile.

On **Facebook**, it protects your timeline, messages and newsfeed and the timelines of your friends. On **Twitter**, it protects your profile and posts from those you are following.

Anti-Theft - Stay Safer by Tracking and Locating Your Missing Laptop Computer

Protect your laptop in case it gets lost or stolen, and increase the chances of its retrieval. Create a my.eset.com account to enable protection of your device should it go missing.

Location Tracking	Lets you mark a device as missing via ESET Anti-Theft web interface at my.eset.com to initiate automatic monitoring Displays position on a map based on the Wi-Fi networks in range when it comes online Allows you to access the gathered information via ESET Anti-Theft at my.eset.com
Laptop Activity Watch	Allows you to watch thieves via built-in camera Collects snapshots of the missing laptop's screen Saves all recent photos and snapshots to the web interface at my.eset.com
Anti-Theft Optimization	Optimizes Anti-Theft settings, makes it easy to configure Windows auto-login and account passwords Offers simple and comprehensive setup process and configuration options Helps you increase the level of security by prompting you to modify key system settings
One-way Messaging	Send a one-way message to your missing laptop to increase the chances of its retrieval

Keep Your Private Data Safe from Identity Theft

Stop hackers from misusing your passwords and bank account details. Enjoy safer connections, stay invisible in public Wi-Fi networks, and prevent your private data being copied to unauthorized flash drives.

Personal Firewall	Prevents unauthorized users from accessing your computer and taking advantage of your personal data
Vulnerability Shield <small>NEW</small>	Protects all communications by blocking attacks trying to exploit network vulnerabilities
Anti-Phishing	Protects you from attempts to acquire sensitive information such as usernames, passwords or banking and credit card details by fake websites masquerading as trustworthy ones
Out-of-Home Network	Alerts you when connecting to an unknown network and prompts you to switch to the Strict Protection mode Makes your device invisible to other computers connected to the same network
Device Control	Allows to prevent unauthorized copying of your private data to external device Allows you to block storage media - CDs, DVDs, USB sticks, and disk storage devices Lets you block devices connecting via Bluetooth, FireWire and serial/parallel ports
Antispam	Keeps unwanted emails from clogging your mailbox. Combines state-of-the-art filtering technologies for even higher precision.

Keep Kids Safe on the Internet

Our Parental Control gives you the power to show kids only the good side of Internet and relieves your worries about them being exposed to potentially offensive content. You can block more than 20 website categories and manually add additional websites to the blacklist if required.

Parental Control	Gives you the option to choose from predefined categories according to age of your kids Lets you set a password to protect settings against modification as well as prevents unauthorized product uninstallation
-------------------------	---

Enjoy the Full Power of Your Computer

Leaving more power to programs you use daily, the solution lets you play, work and browse the Internet without slowdowns. Stay unplugged and online longer with battery-saving mode and enjoy gaming without distracting pop-ups.

Small System Footprint	Maintains high performance and extends the lifetime of hardware Fits any type of system environment Saves internet bandwidth with extremely small update packages
Gamer Mode	ESET Smart Security automatically switches to silent mode if any program is run in full-screen All pop-up windows, updates and other system-demanding activities are postponed to preserve system resources for gaming or other full-screen activities (video, photo gallery, presentations)
Portable Computer Support	Postpones all non-actionable pop-up windows, updates and system demanding activities to preserve system resources so that you can stay online and unplugged longer

Install and Forget or Tweak Away

Delivering top protection right from the start with the default settings, ESET Smart Security keeps you informed about potential security issues and lets you address them directly from the main screen. Sleek user interface is designed to let you easily set up all routine tasks. In addition, you can fine-tune your security profile with more than 150 detailed settings.

One-click Solution	Protection status and all frequently used actions and tools are accessible from all screens In case of any security alerts, quickly find the solution in one click
Settings for Advanced Users	Offers in-depth security settings to fit your needs Allows you to define maximum scanning depth, scanning time and size of the scanned files and archives and much more
After-scan Actions	Lets you choose the action after an on-demand scan completes, saving your time The available actions are: sleep, reboot or shutdown
